PLEASE READ BEFORE ORDERING

We appreciate all orders. We give all orders, large or small, the same careful consideration in plants and packing. Remittance may be made either by stamps, postal or express money orders; bank drafts, registered letter for cash, or personal check. Checks made on State Banks please add 10c extra to cover exchange. **NO C.O.D. ORDERS CONSIDERED.**

On orders amounting to less than \$1.50, kindly add 25c to cover postage and packing charges. Orders from \$1.50 to \$5.00, we prepay all charges. Orders over \$5.00 go by Express Collect. If express shipment is received in bad condition; file claim with your Express Agent.

Due to the fact that we have no control over the plants after they leave our hands, we cannot, therefore, guarantee them to grow. But we do guarantee safe arrival in good condition. No claims for errors allowed unless made within ten days after receipt of goods. We express or imply no warranty as to productiveness of nursery stock we sell.

We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count, or other causes beyond our control.

If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

Avoid disappointment by placing your order early. Please indicate a second choice in case we should be sold out on items wanted.

Substitutions.—We do not substitute unless at your request.

Visitors are always welcome. Our gardens are located at Fremont, Nebraska, on East Military Avenue, one-half mile east of city limits; the first house east of Garden City School on south side of the highway. Come often and enjoy our flowers. It is always a pleasure to show them. Cut flowers sold in season. All stock is State Inspected.

Two and one-half acres in Perennials.

Flowers depend a great deal on the composition of soils. A good gardener is not surprised if plants vary somewhat in shades of color from descriptions in a catalog.
